

ELITE BOWLERS TOUR

Mars 41'

EBT Classification: ***Planet Pattern***

Pattern Volume: ***26.75mL @ 50µL***

Ratio: ***3.75 to 1***

Design Year: ***2016***

Description: Average length modified house pattern

Characteristics: Symmetrical medium-high volume oil pattern

Recommended Attack Area: Second arrow

Recommended Delivery Speed: Moderately Fast

Equipment: Medium aggressive balls with length

Scoring Potential: Medium to High

Difficulty: Moderate

The EBT Mars 41' pattern is an average length EBT proprietary pattern with a symmetrical design. Mars bridges the gap between the complexity of the EBT GoldDigger and the simplicity of the EBT Milky Way. However, bowlers should be mindful that while Mars has house shot characteristics, it is not. With a ratio of only 3.75 to 1, it is much closer to a sport pattern than it is a typical house shot. Mars places a premium on making consistent shots, but the shots only require bowlers to accurately hit a typical house pattern line (usually around second arrow). Therefore, errant shots become unpredictable, and the further outside one plays, the less oil they will find. Remember, you as the bowler are ultimately responsible for choosing the right equipment and playing the lanes as they allow you to play them! This is only a reference guide, not an answer key! Good luck!
