The EBT Neptune 45' pattern is a long EBT proprietary pattern with a symmetrical design. Neptune is also a very flat, heavily oiled sport pattern that provides very minimal reaction on the short backend. Neptune requires extreme accuracy in conjunction with matching up with the right equipment and staying ahead of the carry down the pattern is designed to create. This pattern is not for the faint of heart, but bowlers choosing an improper attack angle will see washouts, 2-8-10 splits (for righties), and five pins. **Swinging out to 1st arrow is ill-advised**, and second arrow, depending on attack angle, may be difficult to get a consistent read. While a reverse block is possible, the high oil volume will take some time before the reverse block develops as this is a "true" 45' pattern. Remember, you as the bowler are ultimately responsible for choosing the right equipment and playing the lanes as they allow you to play them! This is only a reference guide, not an answer key! Good luck!
